Analysis on the global media and telecoms markets

Guide to industry and company reports

February 2012

The G2Mi service

G2Mi is a leading provider of market intelligence on the global media and telecoms industries. In addition to its subscription service, G2Mi publishes a range of reports that users can purchase on an individual basis. These reports provide in depth information and analysis on both industries and key companies.

Report fall into three broad categories:

- **Industry Profiles:** these reports profile a particular segment of the media and telecoms industry at a country level (for example, Radio in Italy).
- **Company Profiles:** these provide an in depth profile of an individual company.
- **Country Profiles:** this provides an in depth profile of the media and telecoms landscape in a particular country.

In addition to these reports, G2Mi publishes data which users can also purchase in formats such as Excel.

The reports are aimed at senior industry professionals, advisors, investment bankers and marketing services companies. Whether you are researching growth opportunities in new markets or seeking data on your core sectors, G2Mi research provides a wealth of information and data.

How to purchase reports

These reports can be purchased from the G2Mi research shop (G2MiResearch.com) or from one of our distribution partners.
